

WHAT MESH IS

Growth you can verify.

Mesh is a marketing-technology company for premium subscription and OTT growth. Our own platform powers direct carrier billing, traceable traffic and live reporting on every campaign. Every placement is named, counted and logged: no blind inventory, ever.

HOW VERIFICATION WORKS

● 01 · IMPRESSION ● 02 · CLICK ● 03 · BILLING EVENT ● 04 · RECURRING

Every click stays visible from first impression to recurring payment. Placement-level logs are available to clients as standard, and reporting is built to be defended internally, not just read by operators.

THE PLATFORM

Product	Status	What it does
Mesh Vault	LIVE	Reporting you can take to the board. Live across every account and market, refreshed continuously.
Mesh One	LIVE	Problems caught the same day. Our in-house AI agent, with daily reports and clear recommendations for every account.
Mesh Core	LIVE · PARTNER	Marketing steered by your billing data. Billing, churn, customer care and complaint data from your billing backend, with LTV and ARPU models.

WHY TEAMS PICK MESH

- Premium buyers trust evidence. Every claim on our site links to how it can be checked.
- Tools we built ourselves: the parts that decide whether growth holds stay under our control and yours.
- One key account manager for you, and only our media buying team touches your accounts.
